Road to the Digital Mine

Adopt digital strategies to transform operations and create real value with easy-to-deploy machine learning solutions.

Convert asset data into actionable information

40 days
advance notice of process crucial pump failure

1.

Tens of millions in maintenance cost reductions

Proactively adapt to changing conditions

60 days
advance notice of grease pot valve failure

2.

Recovery increase of 5%

Anomaly Detected
on primary crusher conveyor reveals oil imbalance

3.

Turn unplanned downtime into planned downtime

Throughput increase of 10%

Anomaly Detected
on primary crusher prevents a shaft/cone misalignment

4.

Automate maintenance workflows
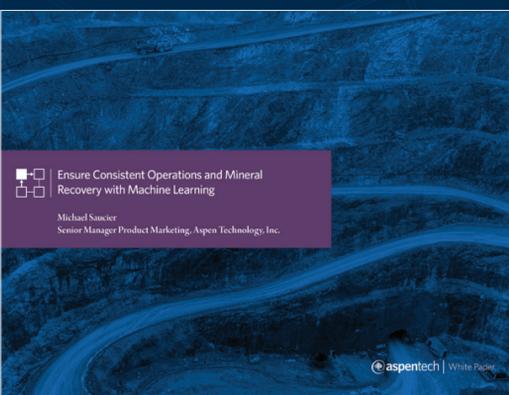

Accelerate your journey...read the white paper "**Ensure Consistent Operations and Mineral Recovery with Machine Learning**"

Ensure Consistent Operations and Mineral Recovery with Machine Learning

Michael Sanscier
Senior Manager Product Marketing, Aspen Technology, Inc.
